

2025 Initiative: Preparing the Way

PRESENTATION ON THE TEN SEED-GROUPS

Origin of the Ten Seed-Groups

Four requirements:

1. Sensitivity to Soul contact.
2. Impersonality.
3. Soul Powers.
4. Mental polarisation.

The objective of the Ten Seed Groups:

- Not to train individuals.
- To provide channels for the distribution of certain types of forces in the world.

The method used:

- Group work: Deep love and comprehension.
- Work in meditation with clarity and power.

The Seed Groups are an experiment:

- I. In founding focal points through which certain energies can flow into humanity.
- II. They are an experiment in inaugurating new techniques in work and in modes of communication.
- III. These seed-groups are an externalization of ten inner groups (which form one large group) which must become objective.
- IV. These seed-groups aim at manifesting certain types of energies which will produce cohesion and at-onement on earth.

Objectives of each disciple:

- a. At-onement with his group brothers. (Lose sight of one's personal ego and work as a group).
- b. Alignment with his Soul and with the inner group (the subjective cause).
- c. The mastery and expression of the particular technique which one's group should embody.

THE TEN SEED-GROUPS

1. Telepathic Communicators

- Work on the mental plane.
- Aim to establish telepathic communication
from Soul to Soul
from mind to mind
- Use: head, heart and throat centres.

2. Trained Observers

- Work on the astral plane to dissipate the astral forces which enslave humanity in their glammers and desires.
- Use: head, heart and solar plexus centres.

3. Magnetic Healers

- Work at the right organization and circulation of forces through the etheric body.
- Work in group as intermediaries between the planes of spiritual energies and the patient or group of patients.
- Use: head, heart and ajna centres.

4. Educators of the New Age

- Work as communicators and transmitters of Knowledge and Wisdom.
- Their work is helping humanity to build the Antahkarana, linking the Higher Mind, the Soul and the lower mind.
- Use: head, ajna and throat centres.

5. Political organizers

- Work in the world of human government and with bringing about of international understanding between nations.

- They work with the first Ray, to embody the method whereby the divine Will works out in the consciousness of races and nations.
- Use: head, heart and base centres.

6. Workers in the field of Religion

- Work to formulate the universal platform of the new world religion.
- This platform will be built by many groups, working under the second Ray and the inspiration of the Christ to transcend the divisions on the ways to approach divinity.
- Use: head, heart and base centres.

7. Scientific Servers

- Work to reveal the essential spirituality of all scientific work which is motivated by love of humanity and its welfare.
- Act as an intermediary between the building forces of the universe and the human spirit.
- Use: head, throat and sacral centres.

8. Psychologists

- Are concerned with the revelation of the fact of the Soul and with the new psychology which will be based upon the seven Ray types and the new esoteric astrology.
- Their major task is to relate (fuse), through approved techniques, the Soul and the personality, leading to the revelation of divinity through the medium of humanity.
- Use: head, heart, solar plexus and throat centres.

9. Financiers and Economists

- Work with the energies and forces which express themselves through the interchange and the values of commerce.
- They will be the great psychometrical workers, for a psychometrist is one whose Soul is sensitive to the Soul in others and in all forms of life. The principle of Sharing which must govern economic relations in the future is a Soul quality or energy and hence their work of relating Soul with Soul.

- Use: head, heart, throat and sacral centres.

10. Creative Workers

- Work to link and blend life (1st aspect of Divinity) and form (3rd aspect) creatively.
- Their task is of relating the other nine types of groups so that they may work creatively upon the physical plane. (They are related to Ray 7 and they support all other groups)
- Use: head, heart, sacral and base centres.

Conclusion

The function of the seed-groups is to seed the new and spiritual approach to spiritual living in all the domains of human activity. This work, if it succeeds, will greatly accelerate the progress of humanity by giving clear guidelines about the essential points to be developed in each domain.

What do these seed-groups entail for the members of the Group of World Servers?

- To discover our field of service, for which we have been prepared for a long time by our Soul.
- To develop the knowledge and the skills we need for our work, and progressively through the guidance of our inner Light to find our way and our role in our group of service.
